SUMMARY

Java Full Stack Developer skilled in Java, Spring Boot, React.js, MySQL, REST APIs, HTML5, CSS3, and JavaScript. Skilled in developing scalable web applications, optimizing backend performance, and implementing secure authentication systems. Strong foundation in software engineering with internship experience in Full Stack Development and AI/ML.

TECHNICAL SKILLS

Languages : Java, Python, JavaScript

Frameworks : Spring Boot, React.js

Web : HTML5, CSS3, REST APIs, CRUD Operations

Database : MySQL, DBMS, Relational Schema Modeling

Tools / DevOps : Git, GitHub, Docker, Eclipse, VS Code

Cloud / Deployment : AWS (Basic), Vercel

Concepts : Data Structures, OOP, Operating Systems, Computer Networks, Agile, Responsive Design

INTERNSHIP EXPERIENCE

Acaders Pvt. Ltd. | Bangalore, India

Feb 2026 – May 2026

Java Full Stack Intern

- Tuned Spring Boot REST APIs through query and code improvements, reducing response latency by 25%.
- Developed 15+ backend endpoints integrated with MySQL to support application workflows.
- Crafted responsive web interfaces using React.js, HTML5, and CSS3, enhancing user experience across devices.
- Integrated frontend components with backend services across 5+ modules, enabling seamless data exchange and improved application responsiveness.
- Streamlined CRUD operations across 10+ workflows, enhancing system reliability and reducing the bug rate by 20%.

Smart Learn Edtech | Bangalore, India

Jan 2025 – Apr 2025

AI/ML Intern

- Constructed CNN-based image classification models using TensorFlow, achieving 85.4% validation accuracy.
- Accelerated model training by 15% through hyperparameter tuning and refined data preprocessing pipelines.
- Enhanced prediction performance by 18% through iterative experimentation and model refinement.
- Leveraged Python, TensorFlow, OpenCV, and NumPy to develop AI-powered image recognition solutions across 4+ image classification categories.

PROJECTS

Car Service Management System (CSMS)

- Engineered a full-stack web application using Java, Spring Boot, React.js, and MySQL with 10+ relational tables, cutting manual booking effort by 40%.
- Secured the application with role-based access control (Admin/User) using Spring Security and JWT authentication.
- Designed and integrated RESTful APIs to manage customer, vehicle, and service records efficiently.
- Developed a responsive frontend with HTML5 and CSS3, improving service tracking efficiency and user interaction.

AI-Based Helmet and Mask Detection System for ATM Security

- Deployed a real-time ATM security system using Python and TensorFlow, achieving 97.55% accuracy across 3 anomaly classification categories.
- Applied image preprocessing and augmentation techniques to improve model generalization and detection accuracy.
- Trained and evaluated deep learning models on custom image datasets for security violation detection.
- Implemented real-time person detection using OpenCV and deep learning models, processing video streams at 25+ FPS with live frame analysis.

EDUCATION

AGMRCET, Varur (Affiliated to VTU Belagavi) | Hubballi, Karnataka

Dec 2022 – May 2026

Bachelor of Engineering in Computer Science

CGPA: 8.76 / 10

LANGUAGES

English

Hindi

Kannada

CERTIFICATIONS

- AI/ML Internship – Smart Learn Edtech | 2025
- Java Full Stack Development – Acaders Pvt. Ltd. | 2026
- AI Business Intelligence Analyst – Skill India, NSDC | 2025
